

Luke To

(951) 231-8738 | luketruongto@berkeley.edu | [LinkedIn](#) | [GitHub](#)

EDUCATION

University of California, Berkeley

B.S. Electrical Engineering and Computer Science / B.S. Bioengineering

Honors: Berkeley UG Scholarship (\$25,000), Regeneron Biomedical Science Award, DECA Emerging Leader Honor Award

Class of 2028

ACT: 35 | GPA: 4.0

EXPERIENCE

Data Analyst Intern

Jan 2026 – Present

American Red Cross

- Analyzed 1.5M+ donor records and 130k blood drives to support strategic planning for ARC's SCD initiative.
- Built a 5-metric KPI framework revealing mobile drive donor volume fluctuations up to 23% vs. fixed-sites.

Software Engineer Intern

Sep 2025 – Present

Docere

- Built core features for an AI-powered coding environment serving 1k+ students at a venture-backed EdTech startup.
- Engineered a COPPA-compliant, multi-language execution sandbox (Python, JS, HTML) using isolated runtimes.
- Implemented centralized async error handling, request-level monitoring (Sentry), and CSRF protection across APIs.

Technology Fellow

Aug 2025 – Jan 2026

HeadStart Fellowship

- Selected as 1 of 66 fellows (~3% acceptance) for a fellowship backed by D.E. Shaw and General Atlantic.
- Developed CarbonFootprint Tracker, an AI web app estimating carbon emissions with 92% classification accuracy.
- Built a React + FastAPI dashboard integrating Plaid and Climatiq APIs for personalized carbon insights.

LLM Research Intern

Jul 2025 – Dec 2025

Algoverse AI

- Built a RAG-powered Q&A agent using LangChain and vector databases, improving document retrieval relevance.
- Designed evaluation benchmarks to test LLM reasoning quality, iterating on prompt and retrieval strategies.

MOVE Fellow

Oct 2025 – Present

Handshake AI

- Evaluated 500+ multimodal data samples across image, audio, and video to train AI systems on cross-modal reasoning.
- Provided high-signal feedback on model alignment, refining AI behavior for summarization and audio-visual tasks.

Research Intern

Aug 2022 – Apr 2024

University of California, Riverside

- Researched Orthopoxvirus therapeutics, proposing novel Tecovirimat modifications targeting Monkeypox VP37.
- Ran computational docking simulations to redesign Tecovirimat, achieving a 215% increase in VP37 binding affinity.
- Presented molecular docking results at UCR's undergraduate research symposium using VMD 3D visualizations.

LEADERSHIP

Chapter President

Aug 2021 – May 2025

Distributive Educational Clubs of America (DECA)

- Scaled chapter to 425+ members, establishing it as the largest DECA chapter in California across 300+ chapters.
- Led a 10-member officer team to execute 40+ events and connect members with internships in finance and consulting.
- Drove \$20,000+ in fundraising revenue through a student store initiative, covering competition fees for 425+ members.

Corporate Chair

Aug 2025 – Present

UC Berkeley Biomedical Engineering Society

- Coordinated industry tours at Bayer and Illumina for 50+ members, providing exposure to biotech R&D operations.
- Organized a corporate dinner connecting 30+ BMES members with Bay Area biotech founders for mentorship.

TECHNICAL SKILLS & INTERESTS

Languages: Python, Java, JavaScript, C++, SQL, Scheme, LaTeX

Libraries & Frameworks: React, Next.js, Node.js, FastAPI, PyTorch, Pandas, Typescript

Developer Tools: Supabase, Git, VS Code, Vercel, Cursor, Claude Code, IntelliJ, Figma, Google Colab

Certifications & Programs: Expedition EY, BCG Launch, Amazon Fulfillment Center Strategy Externship

Personal Interests: PC Building, Beli Reviewing, Beach Volleyball, Sourdough Baking, Lego Sets, Table Tennis
